

What I Need to Know

- QFRS provides insurance coverage for brigade equipment and fire stations.
- For standard subsidised (including special purchase) equipment that has been damaged or destroyed, Area Directors Rural Operations and Regional Managers are authorised to approve its total replacement or the provision of replacement parts needed to restore the equipment to service.
- Replacement of other items will be on the basis of like for like. These items are non-standard issue, including chainsaws and equipment contained within fire stations such as fridges, tables, chairs, training equipment etc., and includes damage to structure of the station itself. This does not include fuels, oil, lubricants, food and drink.
- Calculation of the replacement cost of equipment on the basis of like for like is based on the same depreciation schedules employed by the Australian Taxation Office.
- Insurance claim forms are available from your Area Office. Any application for claim should contain sufficient information to allow the merits of each claim to be judged as to the veracity of the claim and subsequent payment. This includes providing a statement explaining what was damaged, how it was damaged and some sort of verification of the cost involved, e.g. a written quote for repair or replacement.
- Personal items left or stored in a fire station are excluded from QFRS insurance coverage.

How I do it

Flowchart – Brigade Equipment
